

REMARKS

Applicants respectfully request entry of the foregoing amendments into the file history of the above-identified Application. Applicants have discovered that Pages 26-27 were inadvertently omitted from the copy of the parent application submitted at the filing of the present continuation, as a result of a clerical error. Pages 26-27 comprise lines 5-12 of paragraph 84, and all of paragraphs 85-89. Pages 26 and 27 were submitted in connection with U.S. Application No. 10/042,527, from which the present application is a continuation application, and the corresponding text appears in the published application (Publication No.: US 2002/014985 A1) corresponding to said U.S. Application No. 10/042,527, wherein such text may be found in corresponding paragraphs [0095] (Lines 6-15) through to paragraph [0100] of the publication.

As clearly indicated in the Utility Patent Application Transmittal for the present application and submitted herewith in the form of a Preliminary Amendment to the Specification whereby the priority claim for the present application is set forth, the contents of U.S. Application No. 10/042,527 are incorporated into the present application in their entirety. In view of the above, Applicants submit that insertion of pages 26-27 into the present application does not constitute introduction of new matter.

Pages 26 and 27 have been prepared as separate sheets and are attached hereto, for ease of review of the foregoing, and to facilitate the incorporation of this text into the file history of the present application. Accordingly, entry and favorable consideration of this Preliminary Amendment, and an early and favorable examination on the merits are courteously solicited.

Respectfully submitted,

DAVID A. JACKSON
Attorney for Applicant(s)
Registration No. 26,742

KLAUBER & JACKSON
411 Hackensack Avenue
Hackensack, New Jersey 07601
